Kristine –

Here is the list of issues you requested that we would like to discuss on Tuesday:

1. PRGs for COCs that do not pose unacceptable risk
2. Use of sediment background concentrations in PRG selection
3. PRG consistency with risk assessments and risk management principles
 - a. Expansion of COC Table 2.2-02 (in Section 2.2)
 - b. Manganese water PRG
4. Benthic risk PRGs and linkage to the Comprehensive Benthic Risk Approach
5. Changes to RAOs text
6. Surface water and tissue “PRGs”
7. Target areas and volumes for remediation
8. Development of fish/shellfish consumption PRGs

As Bob mentioned to you last week when the meeting was scheduled, the LWG is compiling our comprehensive list of issues and will provide that at a later date. This partial list follows up on the Senior Manager request to engage early on initial issues identified in our preliminary review of Section 2. We feel that these are all topics that warrant early engagement and appreciate your availability to meet tomorrow.

Jen Woronets is going to also send this information as a meeting update, per your request below.

Thanks.

Carl

Carl – Sorry, I got your VM message confused with someone else and thought you left at 4. Anyway, all I need is a list of issues to be discussed on Tuesday in an updated meeting invite so I can forward to the EPA team and MOU partners. If you want to discuss these, I have some time on Monday between 11 and 12:30.

Thanks,

Kristine Koch

Kristine – Sorry if I missed your call (I did not get a voice mail from you), but I am still in the office today. Regardless, I will relay your request to Bob and Jim and see if we can work something up on Monday for your use. Have a great weekend!

Thanks.

Carl – I got your VM message. Since you have already left for the day, I'm sending an email. I have not spoken with Bob about any issues regarding FS Section 2. I only know that the LWG has issues to discuss. Please send those issues either in an email or in the meeting invite for next Tuesday so I can share them with the broader group. I would like them in writing so that the LWG characterizes their issues and I do not misrepresent them to others. Please send them by COB Monday, 3/16.

Thanks,
